The Lakes LifeCare Center, Inc. has been offering assistance to pregnant women and women with babies or small children in the Forest Lake and surrounding areas since 1982. We offer pregnancy and STI tests, ultrasound examinations, educational materials as well as infant, toddler and maternity items. Our popular "Earn While You Learn" Program gives women and families a chance to earn points by participating in various parenting education programs. These points can then be used to obtain any number of baby items. All of our services are offered free of charge
